

Dear Sirs

We, “Associazione Dirigibili Archimede” (not-for-profit association) operate in Italy with the aim of diffusing knowledge about airships and promoting their use. We do that, at the present, mainly by communication (www.dirigibili-archimede.it), but many are our programs for the future.

We have read with much interest of your good initiative to establish the “Spitsbergen Airship Museum”.

We think that your project could become a valuable asset of the tourist and cultural offer of the islands and contribute to strengthen the local identity.

It is also in line with rediscovery of the potentialities of airships that in these days gives birth to a number of programs in many countries.

For above reasons we sustain your initiative and will be happy to back your efforts.

With regards

Nicola Masi

President of “Associazione Dirigibili Archimede”
